德國黑科技 提升木地板的抗水性能

今天為您介紹太格德國疏水木地板 - 融合德國精湛工藝與創新材料技術，打造現代居住空間的理想選擇 - **Kiwi 太格德國疏水木地板**。

太格德國疏水木地板表面採用天然礦物氧化鋁耐磨層，具備立體紋理設計，能有效抵抗刮痕與磨損，長久使用也不失原貌。

基材由原木纖維融合創新的疏水技術組成，不含 PVC，吸收水分後能藉由自然風乾恢復原始尺寸，突破性提升木地板的抗水性能。

太格德國疏水木地板鎖扣式安裝系統，讓施工快速便捷，同時確保完工後地板的穩定平整。

此外，太格德國疏水木地板符合《建築技術規則》樓板隔音標準，提升住宅品質，為您的家打造更加安靜舒適的居住環境。全系列皆取得台灣健康綠建材標章，讓您在選擇時更安心。

不論是耐用、舒適性還是健康，太格德國疏水木地板都能為您打造最理想的居家空間。讓全家享受最友善、最環保的地板選擇。

Impressive water resistance for a wood floor

I'm excited to introduce Kiwi Now Hybrid Resilient Flooring, a premium German-engineered product that combines exceptional craftsmanship and innovative materials to create the ideal flooring solution for modern living spaces.

Kiwi now's surface uses a natural mineral aluminum oxide wear layer, which means it's tough against scratches and daily wear. Plus, with its textured design, it not only feels great underfoot but also keeps that fresh, like-new look over time.

The core is made from real wood fibers blended with innovative water-repellent tech and it's completely PVC-free. When it absorbs moisture, it naturally air-dries back to its original shape, giving it impressive water resistance for a wood floor.

Kiwi now also features a patented Clic-system that makes installation quick and hassle-free. Once it's in place, the floor stays smooth, stable, and secure!

Kiwi now also meets the floor sound insulation standards set by Taiwan's Building Technical Regulations, helping create a quieter and more comfortable living environment. Plus, all collections and colors available in Taiwan are certified by the Taiwan Green Building Material Label, giving you peace of mind when choosing a healthier, more sustainable option for your home.

Whether it's durability, comfort, or health, Kiwi Now Hybrid Resilient Flooring is designed to create the ideal living space for you and your family. It's a flooring choice that's friendly to both people and the planet.
